TRAINERSPLANNER

FOR ALL COACHES

# WHO IS COACHING THIS WEEK?

Our new coach planner. No more spreadsheets, no more messages back and forth. You tap when you can make it, the app does the rest.

✓ Available | Backup | Not available

## FILL IN WITH ONE TAP

For every practice and match you choose Available, Backup or Not available. Saved right away, with an optional note.

## CHECK: ENOUGH COACHES

The app keeps track of whether enough coaches are scheduled.

## LOAD MATCHES AUTOMATICALLY

The fixture list from, for example, Voetbal.nl can be loaded automatically. Changes are processed every 3 hours. The team manager can set this up.

## DAY OVERVIEW

See at a glance who is on and who can still come. With the My days filter you only see the sessions where you are scheduled.

## IN YOUR OWN CALENDAR

Put your scheduled days in your calendar on iPhone, Google or Outlook. Changes then come through automatically.

## HOLIDAYS SORTED

Summer break, winter break and free weeks are already in. New weeks are added automatically.

OPEN THE APP

**trainersplanner.netlify.app**

How to start and put the app on your phone: see the back

TRAINERSPLANNER

# HOW TO START

1. Scan the QR code or go to **trainersplanner.netlify.app**
2. Fill in the **team code** you get from your team manager.
3. Tap **your name** and create your own **personal code** of 5 digits. No account needed: the app remembers you.

Scan me

## PUT IT ON YOUR PHONE AS AN APP

You then get an icon on your home screen and it opens full screen, just like a regular app.

### IPHONE

1. Open the link on your **phone**
2. Tap the **share button** (square with an arrow pointing up)
3. Choose **Add to home screen**
4. Tap **Add**

### ANDROID

1. Open the link in **Chrome**
2. Tap the **three dots** top right
3. Choose **Add to Home screen** or **Install app**
4. Confirm with **Add**

## PHONE, LAPTOP OR WORK DEVICE

**On your phone**
Quickly fill in from the sideline or the couch.

**On your laptop or PC**
Same app in the browser, with a wide view of the schedule.

**On your work device**
It's a website, not an app from a store. Nothing needs to be installed or approved by IT.

Does your employer block websites on your work device? Then use your own phone.
